SVEVA

Sveva is a light swinging art nouveau caps only headline font, with swash like alternates and lots of special combinations. It's well suited to set a short and fancy block or line of text. It was one of the first Opentype fonts released in 2003 on Myfonts.com and the second font release of my astype studio. In recent years there are more and more books for young adults and from the fantasy genre that use Sveva for titlings.
